

# GitHub

Goto <https://github.com>

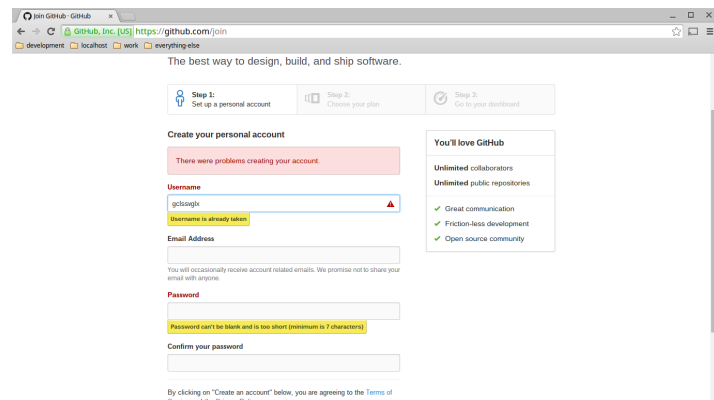

Click on the big green **Sign Up for GitHub** button

Choose a **Username**

GitHub will tell if it's not available

Enter your **email address** &  
create a **password**

Click the **Create an account**  
button

The screenshot shows the GitHub 'Create your personal account' page. At the top, there's a red error message: 'There were problems creating your account.' Below this, the form fields are: Username (gcissvgi), Email Address (gcissvgi@gmail.co.uk), Password (masked), and Confirm your password (masked). All fields have green checkmarks indicating they are valid. To the right, a box titled 'You'll love GitHub' lists benefits: Unlimited collaborators, Unlimited public repositories, Great communication, Friction-less development, and Open source community. At the bottom, there's a green 'Create an account' button and a link to the Terms of Service and Privacy Policy.

The **Free** account type  
should already be selected -  
if not choose that option

Click the **Finish sign up**  
button

The screenshot shows the GitHub 'Choose your personal plan' page. At the top, there's a progress bar with three steps: Step 1 (Completed: Set up a personal account), Step 2 (Choose your plan), and Step 3 (Go to your dashboard). Below the progress bar, the 'Free' plan is selected. The table shows the following plans:

Plan	Cost (new to GitHub)	Private repos	Choose
Large	\$50/month	50	Choose
Medium	\$22/month	20	Choose
Small	\$12/month	10	Choose
Micro	\$7/month	5	Choose
Free	\$0/month	0	Choose

To the right, a box titled 'Each plan includes:' lists benefits: Unlimited collaborators, Unlimited public repositories, Free setup, SQL Protection, Email support, and Wikis, Issues, Pages, & more. At the bottom, there's a green 'Finish sign up' button and a link to 'Help me set up an organization next'.
